LUONTO
FINE FUNCTIONAL FURNITURE

A Letter From Our President

Through the history of our family business, we have always emphasized on the core principles that the company was founded on and passed down through generations guiding our everyday decision making. Whether it be quality, honesty, or integrity, to name a few, we have maintained and expanded for over 55 years – adhering to our core principles in all facets of the business.

The past few years have reminded me however, that there are times in business that require more than good principles. While we will never waiver from our quality commitment in every decision we make, it's important to know when and how to adapt. That is after all, how generations prior have kept us moving forward, when faced with obstacles we have adapted to thrive.

The leadership values instilled in our company over many years, at every level, give us the innate ability to adapt and overcome when

faced with challenges. Having a workforce with an average tenure over 20 years creates more than just highly skilled employees – it creates dedicated people with passion and purpose.

Reflecting on this makes me thankful and committed to maintaining the foundation that exists within our organization. Combining our principles with our passion – ensuring that remains intact – will keep us on the forefront of the industry and gives us the ability to continue to create opportunities where others see impossibilities.

In our experience, challenges can lead us to great opportunity; these opportunities create success; and with success come more challenges – we find comfort in facing challenges head on, knowing we have the right people and mindset to continue to innovate and find solutions.

In the following pages we are proud to present some of the most exciting furniture in the industry. We detail our raw materials, production methods and overall quality as part of our guiding principles to maintain transparency in our product. Our team approaches each product by incorporating design with function, intended to make your life a little easier and more comfortable.

We are grateful for our loyal customers and their support, giving us another year to share our passion with you. As prior generations in our family have done before us, we continue humbly, the only direction we know, forward.

Chad Potter
President, CEO

FOUNDED IN 1964

It All Started in a Hay Barn

In Finland, 1964, Pentti Viitala began reupholstering used sofa in a hay barn on his family farm. He bought a truck and sold them door-to-door in his small town of Kurikka.

Pentti found early success marketing renewed sofas and enlisted his family to assist in the production process, above his wife Viola is helping to sew. Timo, Pentti's son (now Chair of the Board) helped to press buttons.

1970s

Schoolhouse Days

The Viitala family lived and operated a factory from an old village schoolhouse. During this time, the transition was made to manufacturing new sofas.

To reduce lead times and meet the rising demand, the family began to warehouse all the raw materials required for the expanding production line. Additional trucks were purchased and delivery services expanded all over Finland.

1980s

Growth Years

After the acquisition of a local sawmill, operations expanded to include the frame building step. Primed for increased production, the business initiated a B2B sales model and hired 20 full-time employees for production and sales.

With a decade of strong growth, the family started construction of the Kurikka factory (pictured). To highlight the significance of this time, Pentti and Viola named their children as partners in the business.

1990s

2000s

2010s

HISTORY

Globalization

Timo Viitala, a born leader and visionary with an intimate understanding of the business was named CEO. Today, Timo remains an active member of our team as Chairman of the Board, where he continues to mentor and share his vision for the future.

When Western Asia started reconstruction, Timo saw the opportunity to sell furniture to the new market. In fact, this decision shielded the business from much of the effects of the recession that had gripped Scandinavia.

Further Expansion

Growth continued to demand additional resource and capacity. The business acquired a third production line with its 400 full-time employees.

With its new output capability, the business could better support its export market, and supply furniture to roughly 550 retailer locations across 15 countries around the globe.

A New Chapter

Luonto Furniture, Inc. came to North America in 2012 and established a strong footing in the market. With showrooms at both High Point and Las Vegas Markets and an Authorized Retailer list of more than 300 stores, Luonto had developed a strong foundation for sustained growth. In 2019, the company brought its headquarters and warehousing together, opening the Luonto Distribution Center with close access to the ports of Charleston, SC.

BUILT-IN SUSTAINABILITY**Quality Furniture**

Our high quality furniture is crafted with specific intent to last more than 10 years. With both our materials and assembly methodology, every product is built with a repairability mindset. Significantly reducing product waste on our planet

EXPLORE OUR QUALITY STANDARD
PAGE 69

ZERO WOOD WASTE

Our wood dust is collected at our sawmill and pressed into pellets. The pellets are used to heat our production lines during Finland's harsh winters.

RAW MATERIAL

We only source the highest quality raw materials. The world's most revered certifications on wood, foam and upholstery.

Recycled Fibers

The fiber in our cushions is made with recycled PET water bottles. Our R-PES upholstery collection contains 100% recycled fibers from water bottles.

Our Sustainable Heritage

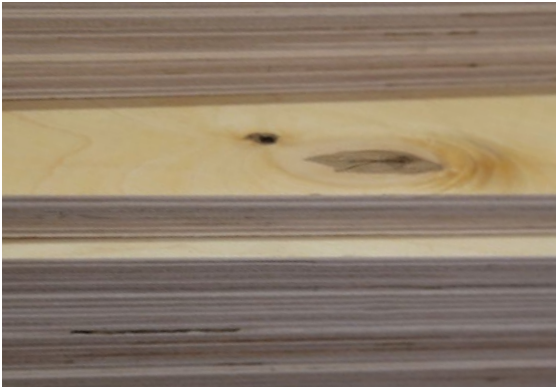

"IT'S DONE SIMPLY BECAUSE IT'S WHO WE ARE AND WHERE WE COME FROM"

Our sustainable manufacturing practices are just part of our heritage, it's done simply because it's who we are and where we come from. Whether it's how we re-purpose our wood dust to form pellets for use as a fuel for heating our production lines, or how we partner with local artisans who use our scraps instead of just considering it waste.

Forests in Finland are typically harvested once per generation, roughly every eighty years. Our family's forest is nearing the end of its lifecycle and will soon be harvested. Afterward, preparations are made for the following generation's care until it's once again ready for harvest.

Since the 17th century, management of Finland's forestry has been under government control. More recently, about a hundred years ago the emphasis on sustainable yields began, ensuring growth is always more than yield. Finland's forestry land is comprised largely of Northern Europe's native Nordic Spruce. Nearly 70% of Finland's timber output is exported globally.

We strive to partner with vendors who support our efforts, minimize our carbon footprint, secure our longevity and deliver fine functional furniture for many more years to come.

Frame Material

Nordic Spruce and Interior Grade Birch Plywood is used in combination to make every frame strong and flexible for best durability.

Suspensions

No sag springs are used for every seat. Individually attached to the frame with coated stapled clips, reducing any potential noise.

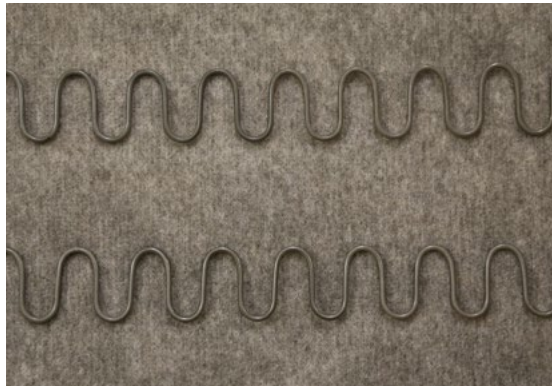

Foam

Every product uses 2.2 density high resilience cold cured foam. Each design is cut by our vendor, increasing accuracy, reducing waste.

Fiber Padding and Filling

Used for a soft comfort barrier between the foam and upholstery, Fiber padding is glued to the foam with water-based adhesive.

Felted Fabric

Friction between the springs and foam create unnecessary wear, felted fabric eliminates this breakdown, prolonging seat foam life.

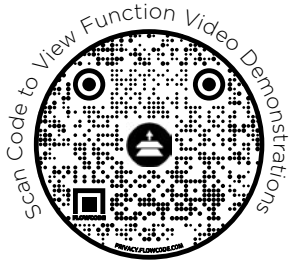

Packaging

From the start, each design is created with careful precision. Our packaging ensures all is delivered safely each time.

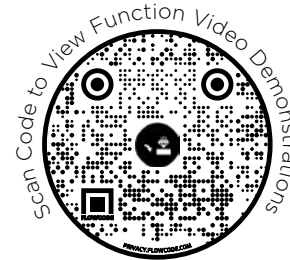

LEARN THE FUNCTIONS

FUNCTIONS

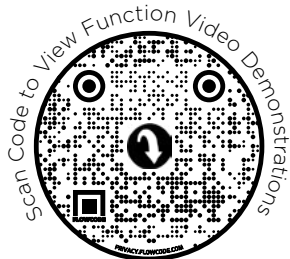

BUNK BED FUNCTION

1. Lift up from front panel
2. Reach down with right hand, pull handle up and out
3. Unclip and swivel ladder down
4. Open hinged head/foot panels
5. Unclip belt and install rail cover

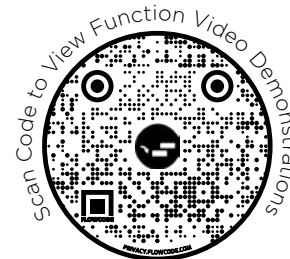

EASY DELUXE FUNCTION

1. Remove back cushions
2. Lift from under the front of seat
3. Take a few steps back and lower
4. Reveals the under seat storage
5. Walk to rear, and pull forward the back to lower

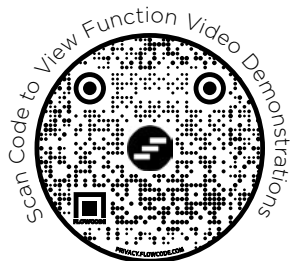

FLIP FUNCTION

1. Lift the seat backs up
2. Lift from under the front of seat
3. Take a few steps back
4. Sleep orientation is arm to arm
5. If sleeper sectional, orient feet toward chaise

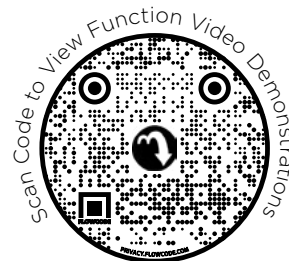

HYBRID FUNCTION

1. Remove back cushions
2. Lift from under the front of seat
3. Take a few steps back
4. Lower the seat
5. Walk to rear, and pull forward the back to lower

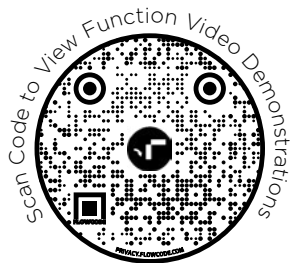

LEVEL FUNCTION

1. Remove back cushions
2. Lift from under the front of seat
3. Take a few steps back
4. Lower the seat
5. Gas Springs offer an assisted open and soft close

MOVE FUNCTION

1. Pull to slide out for deep seat
2. Lift from under the front of seat
3. Take a few steps back
4. Lower the seat
5. Sleep orientation is arm to arm
6. Fully upholstered triple chaise

NEST FUNCTION

1. Remove back cushions
2. Grab handle near seat back
3. Use other hand to lift seat front
4. Lift up and out, lower to floor
5. Fold down seat back. Repeat for each seat

LUONTO LOUNGERS

1. Standard Swivel with Glider
2. 4-way or 2-way headrest
3. Optional : Manual Mechanism
4. Optional : Power Mechanism standard with rechargeable integrated battery

WHAT EXACTLY IS MTO?

We offer a powerful option on any design in our collection, **Made To Order (MTO)** is a way for you to create a design exactly as you need.

Much of our furniture is available in more sizes and shapes than what is cataloged here, or kept in our US Stocking Program. To take advantage of our wide variety, simply explore our website to find a product's spec sheet.

Assemble an order by selecting a variety of available modules, choosing arm styles, sofa legs, and lastly choose an upholstery covering, fabric or leather are available on any style.

Consumers submit an order to us via an Authorized Retailer who helps facilitate the processing and delivery. MTO orders are handcrafted in our factories and processed through our distribution center in Charleston, South Carolina.

Enjoy the luxury of using your own upholstery material to cover your custom order. Please email customerservice@luontofurniture.com to see terms and conditions before submitting COM orders.

MTO lead times can vary during season, you may request current lead times from your Authorized Retailers when placing your order.

FABRIC COLLECTION

We source our fabric collection offerings from the best fabric mills across Europe. Our fabric is separated into Grades A to E, and represent cost difference, not quality. All of our fabric is high performing, highly resistive against rubbing, fading and pilling. Available performance, Oeko-Tex, Reach Certified and Aquaclean make our selection even better.

LEATHER COLLECTION

With more than 150 selections, all top grain leather there are many options to choose from. All our leather is sourced in Europe, known for its thick high quality hide. Hand-cut and positioned, our leather furniture is fully covered in leather, making the design age well and as expected everywhere. Our collection is divided into grades 1000-5000, separated by highest protected (lowest maintenance) to most natural, requiring maintenance and care. **Explore “Leather Types” on page 67**

“R-PES” RECYCLED POLYESTER

This soft yet tough fabric is a more environmentally friendly option than its traditional counterpart, while still retaining all of the properties that have made polyester so popular since its beginnings in the 1940s. It's a go-to for high-performing, long-lasting goods, with the added benefits of lessening greenhouse gas emissions and preventing plastic bottles from entering landfills.

Our **Ocean Collection** offers fabric with the hand and feel you anticipate with a high quality conventional fabric, without the carbon footprint conventional fabrics create.

REPELS WATER
AND YOUR WORRIES

*Hexa-Carbon Flouoacrylate Resin named C6.

Learn more about this certification at www.luonto.com/certifications

AQUACLEAN

Aquaclean® Technology is a revolutionary fabric treatment that allows you to clean stains (wine, coffee, food, pen etc.) only by using water.

1

Remove any excess residue on the upholstery.

2

Apply water over the stain, either directly or using a damp cloth. Wait a few seconds.

3

Press down over the stain with damp cloth and rub gently over the fabric in circular movements. If the stain does not come off completely, repeat the process as required.

MAINTENANCE

For normal sofa maintenance we recommend that you vacuum the entire surface area regularly. You can use a normal home vacuum cleaner with a brush fitting.

For normal care, you don't need to remove or wash the sofa fabric.

Learn more about this certification at www.luonto.com/certifications

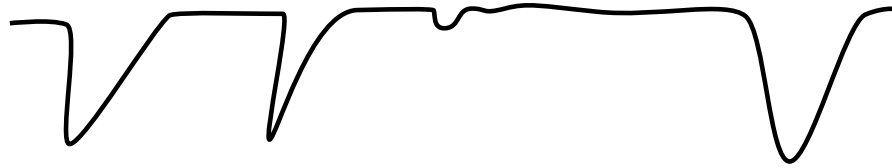

SAFE FRONT® is a powerful permanent barrier against external agents that is applied as standard in the fabric manufacturing process, so there is no need for external disinfecting or sanitizing agents. If you want to keep the sofa clean, you can vacuum it with a soft brush. Safe front protects as standard against enveloped viruses and bacteria, effectively reducing its activity by more than 91% against untreated fabrics.

PRESCOTT COLLECTION

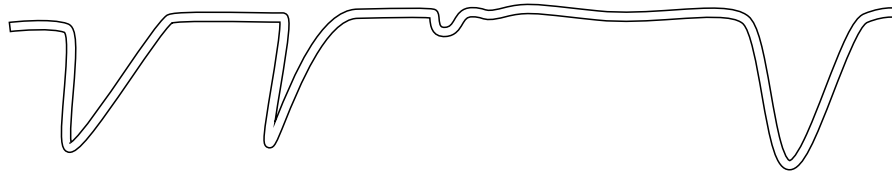

Our Prescott Collection includes 105 specialty colors of Italian top grain leathers. Represented to the right, this collection offers just about any color needed for a statement or design piece to highlight your personality.

Prescott Leather is lightly buffed natural grain, and is a protected leather minimizing the required maintenance compared to unprotected top grain leather options.

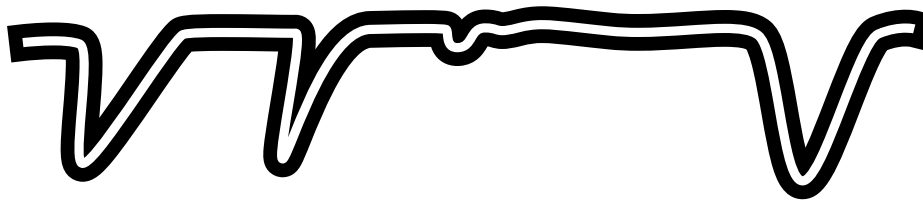

Represents Aniline Leather

Represents Semi-Aniline Leather

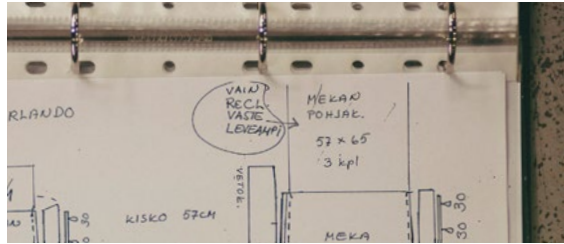

Represents Semi-Aniline Leather

LEARN ABOUT LEATHER

Aniline leather (Wild) is the highest quality leather type. It is made using the most suitable bovine hides. Aniline leather is dyed with translucent water-soluble dye and characterized by the appearance of natural irregularities, such as scars and color hues. The leather's surface is not sanded, repaired or pigmented. Due to its thin finish, the aniline leather is more sensitive to external wear than other types of leather and patinas with use.

Semi-Aniline leather (Nature, Labrador) differs slightly from full aniline leather with light sanding, and light use of water-insoluble pigmentation. The surface of the semi-aniline natural features of leather remain visible. Semi-aniline leather has a light finishing layer and a wax or varnish layer that protects the leather during use.

Cover-dyed Corrected leather (Soft Antique, Natural Soft) surface is sanded and repaired before its final staining. After dyeing, a protective lacquer finishing layer and mechanical graining (printing) are usually applied to the surface of the leather. This way a protective layer is created on the surface of the leather, which reduces the need for maintenance and protection of the leather during use and improves the wear resistance of the leather.

Research + Design

Our development team is a team of experienced individuals who specialize in each of the critical areas of production. Together the team is cross-skilled to understand intimately every aspect of production, both strengths and limitations empowering prototyping projects to excell all the way from vision and design to a successful working prototype.

Frame Building

Our utilization of CNC cutting technology, results in pinpoint accuracy on every frame, everytime. Solid wood compentents of our frames are finger-jointed to offer a strong foundation for life. The components of our frames are cut, then hand assembled with careful attention, and bonded with a strong water-based glue ensuring a long-lasting hold.

Cushion Foam + Filling

Every seat cushion uses a solid 2.2 density cold cured high resilience foam. Our foam is pre-cut to our specification limiting waste and maximizing consistency. Every foam core is wrapped with fiber, glued in place to provide a plush soft surface for the upholstery to lay flat, without shifting or separating, preventing undesired lumping or comfort changes.

Uphostery Cutting

In our experience, technology cannot always match the quality of expert craftsmen. Human-touch posesses a superior understanding of intracacy not matched by any automated machinery available. Leather and patterned upholsteries are all template-nested and cut by hand. This method ensures the best outcome, resource management and finished quality.

Stitching + Sewing

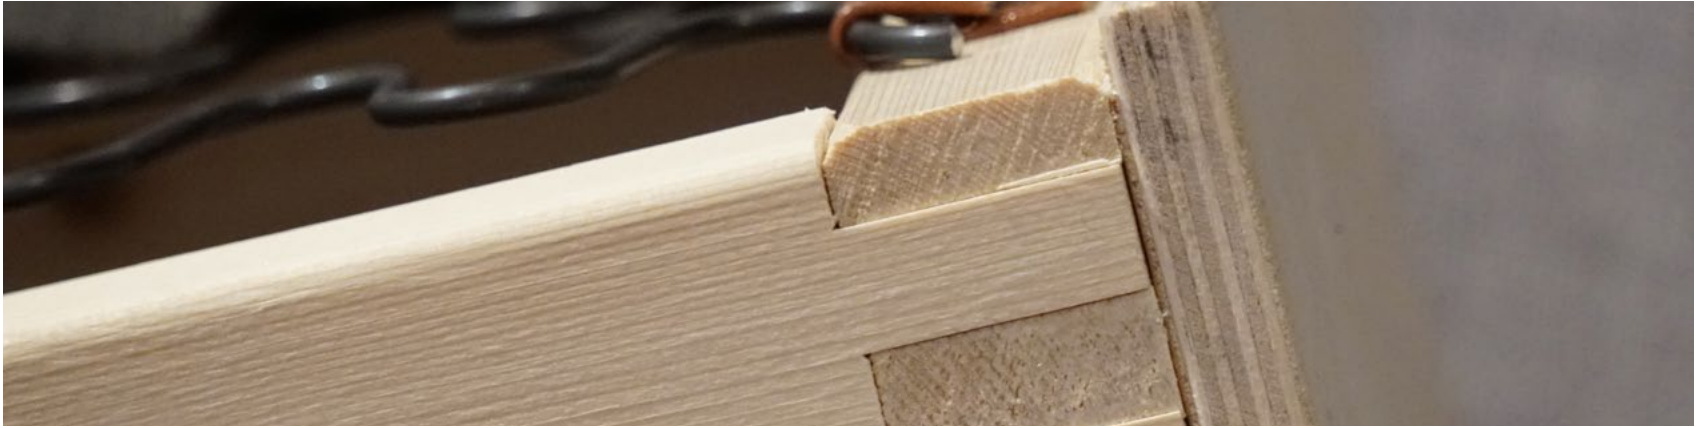

With an impressive ability for consistency and detail, our seamstresses sew every stitch of your sofa to perfection. Wheather serging hidden edges to prevent fraying or finessing small details critical to a design, our team makes the precision and perfection look easy. Our collection offers many design styles not otherwise possible.

Upholstering + Finishing

Upholstering is where a design begins to resemble the finished product. Our upholsterers are tough, strong and detail oriented to work consistently ensuring every piece of furniture is precisely fitted.

Our team of upholsterers are highly skilled and appear to effortlessly complete each piece.

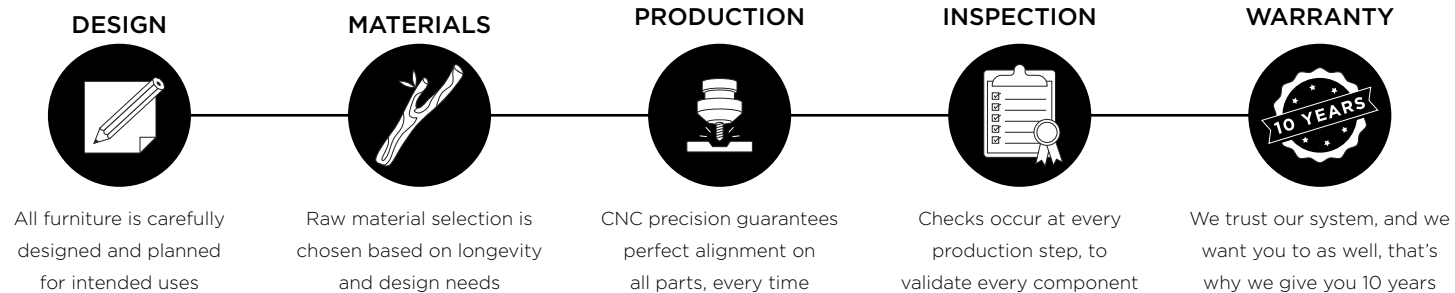

Our Quality Standard – Since the beginning of our story when our grandfather Pentti founded this business, quality was the purpose of everything we do. Quality is our lifeblood, our passion. Establishing our Quality Standard has been vital to upholding our high expectations on every product we design, build and deliver.

Built into the very fabric of our brand is our quality standard, experience Luonto; experience quality. Within every step of our process – from design to material selection, through production, finishing, packaging and delivery, we have rigorous tests all furniture

passes to ensure each step in the production cycle is completed in accordance to our high standard.

It's in our nature, to value every hand that is involved in our production process, and so we have established a culture of excellence by providing performance base incentives, rewarding high quality production over high quantity production. Doing so heightens our production teams' attention to detail, while encourages overall occupational wellbeing, and unifies everyone under our vision, making high quality furniture available for fair prices.

LEGS GUIDE

Choosing Alternative Leg Styles

Check standard legs options from price list product specification section.

Other than standard leg selection:

- Please contact Customer Service to make sure that selected leg is suitable for the product.

We recommend using felt pads under the legs to prevent any damage for the flooring. Product are shipped and delivered with felt pads, replacing felt pads is recommended when needed.

CUSTOMER FAQS

Make ordering from a Luonto Authorized Retailer effortless. But there are a few frequently asked questions we get, and want to address to help you in your journey to purchase your new Luonto Furniture.

WHERE CAN I FIND PRICES?

We have more than 400 Authorized Retailers across the US and Canada. These Retailers can provide you with prices, order from our Stock Program, and even help you order a custom design from our Made to Order Program (MTO).

WHAT IS “IN-STOCK PROGRAM”

Items available “In-Stock” refer to inventory we stock in our South Carolina Luonto Warehouse. Any In-Stock Item in this collection is available for our Quick Ship delivery. Authorized Retailers who may not stock our full collection, have access to any In-Stock Item.

WHAT IS “MTO PROGRAM”

Any item in our collection is available from our Made to Order Program (MTO). MTOs offer you the ability to select modules (if available), upholstery, upholstery color, leg style and color. Our factory will be tasked to make the design with all your selections.

LUONTO WARRANTY

The exclusive Luonto Furniture Inc. warranty becomes effective upon the delivery date of furniture and is non-transferable. Luonto Furniture Inc. will repair or replace at our discretion any piece of furniture that is defective in material or workmanship under the terms and conditions outlined here. If Luonto Furniture Inc. determines that a repair is impractical, you will be furnished a substitute of the same or similar color, design, and quality.

THE REPAIR OR REPLACEMENT OF DEFECTIVE GOODS CONSTITUTES LUONTO FURNITURE INC. ENTIRE OBLIGATION. THERE ARE NO OTHER WARRANTIES, EXPRESSED OR IMPLIED, INCLUDING ANY WARRANTY OR MERCHANTABILITY OR FITNESS FOR A PARTICULAR PURPOSE.

Please register your purchase at www.luonto.com/warranty

How to proceed if you observe a defect:

First and foremost, should you notice a manufacturing defect, it is important that you promptly notify the Authorized Retailer where your purchase was made. If it is impossible or impractical to notify your local retailer, please submit your claim to Luonto Furniture Inc. Customer Services. To exercise your rights under this warrant, you must submit the original sales receipt and delivery ticket when making a claim.

For your convenience, we have a Toll Free number: (888) 255 2951 or email our Customer Service department: customerservice@luontofurniture.com

CATEGORY	Period	Details of Coverage
Frames & Springs	10 Years	¹ Warranted against loss of resilience under normal conditions. All cushions and pillows will naturally soften with normal use. This is not a material or manufacturing defect. Warranty does not cover any normal softening of cushion core, flattening of a fiber top or loss of loft.
Mechanisms	2 Years	² Warranted against seam slippage, fraying, and dye transfer. Except where intrinsic to natural characteristics of fabric (i.e., velvets, silks), warranted against nap loss and marking. All COM (customer's Own Material) and merchandise subject to after-market protective treatments are excluded from warranty.
Cushion Cores, Pillow Inserts, Back Cushions, Back Pillows and Padding	2 Years ¹	³ Warranted against splitting, seam slippage, and dye transfer. Nature's own characteristics such as wrinkling, marking and variations in grain or color are not covered.
Sleeper Mechanisms	2 Years	
Sleeper Mattresses	1 Year	
Electrical Components, Motors,	1 Year	
and Controls		
Covering Fabric	1 Year ²	
Covering Leather	1 Year ³
